

Track your reading time online at <http://merrimacklibrary.beanstack.org> OR use this paper log by coloring one animal/tractor for each 15 minutes you read between June 22nd and August 17th. When you've completed the log, visit the library for your prize(s)!

One log = 10 hours.

*Congratulations! You've completed the  
Summer Reading Challenge!*

**But guess what? Read more, earn more prizes AND help us reach our 600 badge goal!**

**Celebrate your victory at our Finale Concert in the Park on August 17th at 6:00 PM!**

Studies have shown that kids and teens who read regularly during vacation months begin the school year with better reading skills than their classmates who did not read.

Just 15 minutes a day will do the trick. Read what you like! Books, magazines, e-books, comics, manga, and audiobooks all count. Being read to or reading aloud to someone else counts too.

Reading time can be done in segments throughout the day. It doesn't matter what or how you read, as long as you do!

This year's goal is to earn a combined 600 badges during our 8 week program. Every minute you log in Beanstack helps us reach our goal and defeat the Summer Reading Challenge! When we reach our goal, the Friends of the Merrimack Library will make a donation to the New Hampshire Animal Rescue League to benefit people in our community.

Babies and toddlers ages 0 –36 months can participate in the Summer Reading Challenge too! Pick up our Early Literacy Log to track reading activities with little ones.

Teens and adults can also participate in the Summer Reading Challenge. Each age group has its own events and perks. Speak to the staff about getting the whole family

Prizes for finishing your reading log include: a certificate of completion, a prize book of your choice, a digital raffle ticket towards bigger prizes, and more!

## Merrimack Public Library 2022 Summer Reading Challenge Reading Log Ages 3-12

---

Name

Register now, but start logging your reading time on June 22. You have until August 17 to complete the reading goal. You can log as much time as you want!

**You can now log your time online! See inside for details.**
