cloudLibrary - Kindle Fire

Enabling your Fire
- Kindle Fire
    1. Go to the settings menu by tapping the settings icon or swiping down from the top of the screen.
    2. Choose Security (on some Fires you will need to choose Device).
    3. Turn on the option allow Apps from Unknown Sources.
    4. You will get a warning message. Click Ok.
    5. Go back to the Home screen.
- Kindle Fire HD
    1. Swipe down from the top of the screen. This pulls up the Quick Settings menu.
    2. Tap More.
    3. Choose Settings then Device (on some Fires you will need to go to Applications).
    4. Tap on the option to turn on Allow Installation of Applications from Unknown Sources.
    5. Go back to the Home screen.

Download and install cloudLibrary
1. On your Fire, open the Silk browser and navigate to https://www.yourcloudLibrary.com and
2. scroll down the page and tap on the Fire icon.
3. Tap on the red download button that matches the generation of your Fire.
4. Tap Ok.
5. Tap Open.
6. When asked "Do you want to install this application?," select install and then open.
7. If the app does not open, tap on the Home icon and tap on the cloudLibrary™ icon to open the app.
8. Select your country and state from the drop down menus.
9. Select your library and enter your library card number or ID/PIN.
